

March 5, 2012

Dear Dr. Turner,

I want to extend my deep, heart-felt gratitude to you. After twelve years of slow, debilitating sickness, I am feeling significantly better. For the first time in years, I have woken up more than three days in a row refreshed and energized and *hopeful*.

This morning my five-year-old daughter said that she can tell I am finally getting better. I cannot tell you what that means to me.

Thank you for having the courage to do what many other doctors will not, for putting yourself on the line—a thing which I cannot imagine is easy at times. Thank you for giving me and so many others the chance to be well through your work.

My family thanks you, too.

Sincerely,

M.S.
